AddTimePro is a simple, lightweight tool which can be used to add time to your activities. This is the only way to add time to your activities, and for that matter, it has the ability to add an unlimited number of times. A simple mouse click is all it takes to add more and more time to your activities. The program is completely manual, so it's just you who decides how much time you'd like to add. AddTimePro has a graphical user interface, which makes it very easy to use. But this does not mean it is a very simplistic program. The interface is full of options and you can do everything from changing the theme to formatting your input and output options to even adding time to your activities. All of this can be done in just a few clicks. Another thing you can do is customizing the program. If you want to change the time format, or add some information to the time you're adding, then you can do so using the options on the toolbar. If you prefer a simple, simplistic approach to time tracking, then AddTimePro is the perfect program for you.
