Google Play Reviews Something about it's tone (not sure if deliberate or not) makes me feel like I'm watching a very British version of 2001 (or maybe that's what a British version of a sci-fi movie would be like). Anyway, I was surprised this was the endgame - instead of a sort of "hey, what's the rest of this place like?" or "tell me some cool things you can do" type thing. 3 By Freakmaster Needs some sort of explanation for the prologue. 5 By chba it was a really cool concept but i wanna know a bit more about where he came from, what he was like before and why he came to the world of vr. I like the music and the visuals really and it looks cool but its been like 9 years since i last played any vr so I cant give a good review :c Great idea, but the simple puzzle element and the sense of atmosphere is almost ruined by an overabundance of cliches and obvious narrative jumps. 1 By LUAnndy Love the concept, and I've had a lot of success with VR in the past, but I couldn't get past the drawn out intro, and ended up just swearing at the phone until it said 'game over'. 5 By Coldonemyshines AMAZING! 5 By AZ3kazu I had trouble figuring out the controls and it took me a while to get it, but it was really cool I'll give it a five. 4 By The World is Flat Just picked this up, and I love it so far! c9d1549cdd
