When the humans of the Far East were driven into the unknown lands, the time of wars began. The Alston Empire, led by the great warlord Lamaha, began to conquer the Lands Between. The victory of the Empire seemed inevitable, and Lamaha ordered his daughter, Erena, to stop it. Even as the Empire's soldiers approached, Erena stood upon a cliff, carved by the magic of the wizard Vayheim, and launched the forbidden spell of Elden (Heavenly). With the mighty battle cry, "NO MORE WAR!" she forged the Lands Between. However, the victory was short lived. The evil spell cast by Lamaha the illusionist turned the newly born lands into the Lands Between into a closed world, where one could find only one path. Unbeknownst to Erena, the invisible barrier had defeated the magic of the Elden Ring Cracked Accounts, and the spell was quenched. The four Warriors of the Ring, Erena's four companions, were captured by the Empire and imprisoned in the dungeons under the castle. However, the fear of the spell cast by Erena struck their hearts, and they set out to a distant land, where they met by chance with the great hero, Ulrich and the heroine, Yu. Ulrich was traveling to the Capital with his four retainer knights, and Yu was on a pilgrimage to the shrine of the Goddess, fulfilling a vow she made to change her life. After their journey, Yu and Ulrich travelled together to the castle and found the four Warriors of the Ring and Erena locked in a fierce battle. Erena explains to them her story, and each of them made their decision to help her. Ulrich withstood the attack of the Empire's soldiers and protected the captive four, while Yu and the rest of the retainer knights went in search of the remaining Warriors of the Ring. Four months later, they finally encountered Edgar and Drago, the two remaining Warriors of the Ring, and Ulrich and the retainer knights battled in the castle. By the intervention of the Goddess, Ulrich and Yu fought for justice. In the battle, Edgar and Drago left the castle to investigate the Empire. The world was saved, but the fate of Erena and her companions was left in limbo. WHAT YOU GET • Over 120 items for customization ■ A variety of armor and weapons, from swords and daggers

Once again, great news on Dec 21, 2019! At last, the Maniac Box's worldwide release of the "El-Den-Ring" action RPG is finally at your ready. While most game fans are now venting their frustration over the severe time issue made by Nintendo in publishing the extremely fast puzzle/RPG in its mind-boggling "Nintendo Switch" platform only. We are sorry for the continuous delays of the Maniac Box's release and we hope you will understand for our creative conditions, which are quite hard to achieve especially with our emotional and physical being invested in this project. For this reason, we decided to launch in Europe a direct support to our European and Latin American communities. We will be launching our own "El-Den-Ring" game with a complete English version and worldwide support, during this year, with the only CREDIT system and a developer assistance to reach our speed and international standards.
