“It is an entirely new approach to the way we present the game,” said PES Product Director Daniel Ahmed. “HyperMotion allows us to capture incredible insights into the way the players play, and see key events more closely than ever before. Whether you are watching the match on your console, PC, or mobile device, the HyperMotion Action Camera allows you to see and understand the game in a completely different way.” FIFA 22 introduces the “Keep It Real” core philosophy, representing a continual evolution for the FIFA series. Players are provided with the opportunity to improve and tweak the core gameplay that defines the FIFA experience, offering players a wide variety of options and ways to play the game. In the new story mode, FIFA 22 follows the journey of Jordan “Crown” Peters, a young striker who takes on the challenge of making it as a professional soccer player. Crown will face a number of trials during his journey as he journeys through training camps, local and international competition, and encounters historical moments in the sport as he strives to make it to the national team. As the story unfolds, players will discover a wide variety of modes and features, with a constantly evolving tournament, competitive online modes, enhanced Ultimate Team, new player progression, and player classes and AI personalities. “Our goal with the FIFA World Cup is to bring the World Cup to the homes of millions of soccer fans around the world,” said Michel Platelet, the Executive Vice President of the FIFA World Cup Marketing Board. “The best way to do that is to have every World Cup fan around the world part of the action and experience it through FIFA 22, with the latest innovations from PES as the soundtrack.” The FIFA World Cup is the ultimate celebration of soccer. The FIFA World Cup will take place in Russia, from 14 June to 15 July in 12 cities, with five matches per day. Every four years, the FIFA World Cup sets the tournament apart, having the most passionate fans and largest television audience. It is the most-watched live sporting event in the world. FIFA 22 is available on the PlayStation®4 system, Xbox One, and PC via Origin™ on June 27. The FIFA World Cup DLC will launch for EA SPORTS™ FIFA 19 on August 1 for PlayStation 4 and August 2 for Xbox One. Your comments are automatically posted once they are submitted. All comments
