Other Photoshop Alternatives Some alternatives to Photoshop include:

- **Gimp:** An open-source alternative to Photoshop, Gimp has a user-friendly interface and is featured in Ubuntu, a Linux distribution. It is a perfect choice for users who prefer a more Mac-like, clean interface. Gimp is a perfect beginner program that comes with a novice's learning curve, no doubt.
- **Paint.net:** Paint.Net is a free, cross-platform version of Microsoft Paint that is based on GIMP and adheres to the latest GIMP toolkit. As such, Paint.Net emulates GIMP quite well and is quite well-suited for beginners.
- **Photoshop Express:** Photoshop Express is an online application that lets you edit, apply effects, and view your creations and share them with friends or on social media sites.
- **Adobe Design & Web Premium:** This product provides a wide variety of creative features to create stunning web graphics and layout pages.
- **InkScape:** A program that lets you create vector graphics and operate on images. InkScape works with many of the same features as GIMP and Paint.Net. InkScape is an ideal program for those looking to create vector illustrations.
- **Pixelmator:** This program is built for Mac. It provides image manipulation features such as filters, levels, and color curves. Unlike Photoshop, Pixelmator does not have a wide variety of different toolbars.
- **Paint.NET:** An open-source alternative to Photoshop, Paint.NET is a perfect choice for users who prefer a more Mac-like, clean interface. It is a perfect choice for those who find Gimp a bit confusing, since it closely mimics the interface of Photoshop.
- **CoreDRAW:** This photo-editing program is a Windows-only application that is considered by many to be the best one available for Windows. While it may be considered the best image-editing program for Windows, it does not offer the functionality of the programs above it in this list.
- **Magicwand:** This Mac-only program is a rival to Photoshop. It has a powerful interface and offers many features similar to Photoshop.

There are also a number of women out there who just like to "do it the old-fashioned way" when it comes to birth control, e.g. sleeping with condoms, diaphragms, spermicides, or any other method that keeps them from getting pregnant. You develop a new family and a new set of responsibilities. It is a time of self-discovery. Your body is changing, and you are changing. You gain new life experiences, and find new strength. There's no more adventurous way to experience these changes than to have a baby. No matter how young or old you are, there's something about holding a new baby that is exciting and rewarding. There is never any reason to think that you'll be
