It gives you a set of tools to make your 3D projects much simpler than having to code it manually. In this video we will cover how to load a character and make him run. We will also be doing a hand-coding dummies stuff such as animating a character's rig, arm, and leg joints and even moving the ground in which we are running in. This will be an important video to those looking to get into 2D programming. Unity - Smart Floor Tutorial - Part 1 of 2 - TUTORIAL Got into Unity2017 with the aim of making something for myself. Made a new character: Alex. Made the walk cycle myself. My goal is to improve Alex's walk cycle day by day. So far we are on day 4. Alex is learning faster than I do. This time I made Alex jump, so it is day 3 of that feature. I do not own or claim ownership of any original content, the use of which has been authorized. Hell's Pharma! is a unique drug distribution simulation game inspired by the popular Korean drama "W", where your judgment and moods will determine how you end up. "W" is a very dark drama with one main theme of being antisocial, but we've changed it to a comedy drama as the story is light and about having fun. We've also made the story a bit easy since everyone can understand it. We believe that if the story is enjoyable, then it will definitely be enjoyable to people who see it. So we've made it as a comedy drama for the audiences and with simple illustrations.

And we've also made our soundtrack to be as simple as possible. We believed that if the soundtrack is simple, we can show the audience a different way of making the song, so we've made it with piano, and drums, just with simple sounds. We also made this game especially for the ones who don't like watching dramas. Because in this game, you're actually giving the drug to someone you don't like, which is the premise of the drama "W". In our game, we are actually setting the scene as a kind of classroom. - Our school is better than any school, - It's right. We're very well known. - We've got strong students who are bright, - It's right. We're very proud of them. - We've got a lot of important and talented seniors. - It's right. We're very proud of them. - We've got a lot of beautiful girls as well. - It's right. We're very proud of them. - But... - But... But... - Why? - Our school is famous for - Having the best teaching. - Hardworking students. - The students that only live for studying. - We always accept outstanding students. - It's right. They are very intelligent and their grades are perfect. - We've got a lot of lectures. - It's right. We give off lots of lectures. - But... - But... But... - Why? - Why? Our school is totally different. - Than any other school. - It's right. It's different from any other school. - Some students here are very famous, - They are more famous than the teachers.
