----- "I've played just a few more hours of Elden Ring Full Crack than any other review, and I have been moved more times than I care to remember. If you are one of the people who hasn't dared try this game, it might be time to start. Because, really, everything in it's life, that it touches or that touches it seems amazing, really. Well, I guess that's a bit too generalising, but you know what I mean. " -----

"Considering the games vast popularity and the \$5 asking price, the game and its community has still a pretty dark and dismal existence. I'd say its still in the "alpha" stage but its easy to see where it's headed and where its heading to. " -----

----- "It might have been the best RPG I've ever played or ever will play, and that's not hyperbole. This game is just incredible. It's an action RPG, a visual novel, an online community, you can play with friends, and a whole lot of other things. Don't let me dissuade you from playing it. " -----

"This game might not be the best game I've ever played, but it certainly is the most, and I can't think of one to beat it. " ----- "E
