I put them up on the internet this year. It has been taken down from that site and now only available via the Archive.org. Marie also interviewed Janice Tilley and Bryan and I for her oral history and those interviews can be viewed here. This guy graduated in 1991 and he is only 21 years older than the Williams kid and is still playing on the same team as him. His name is Jordan Spieth and he is #2 all time in scoring average. Four other players graduate from the UGA program and are on the captain's list. The team is #9 in the nation in scoring average and all four of those grads are returning. This is a great thing for the program as those four players are good leaders and they are sure to win a lot of games this year. We have a great way to promote the program and our UGA program is going to dominate in 2010. It's going to be a great year! Our road to the championship really starts in Scottdale. This is the national championship and this is the only year that we have the same group of players from last year. I think this is a good thing as it will be great to see them compete against the new team and to see who thri
