LA Pro Cycling's domination of the men's junior road race world championships was cut short in dramatic fashion when a bus accident in the first of four laps left LA Pro Cycling's Tejay van Garderen with a shattered pelvis. Van Garderen, the 2011 Tour de France stage winner, is recovering in a Swiss hospital after suffering broken bones in his pelvis and breaking his wrist after going over a low curb in the finish of the Tour of Switzerland. The team has not confirmed whether van Garderen's injury could require surgery. "He had a pretty bad crash and went down really hard," team director Erik Seidel said. "We had to let him be taken out of the race because he was in terrible pain. He's going to need a lot of help getting better. We're focusing on his rehabilitation and we'll know more tomorrow [Friday]." Seidel said van Garderen was conscious after the crash and was taken to hospital in a nearby town. He is expected to be released on Friday. The accident occurred on a rainy day during the first stage of the Tour of Switzerland, a 120-mile, four-stage road race that started in Interlaken on Thursday and concluded with the crash. Officials for the UCI, the international cycling federation, and the UCI ProTour said the crash is under investigation. Seidel said the crash occurred in the second lap, and he said that there is little doubt that the yellow jersey, the race's most prestigious honor, belonged to LA Pro Cycling's Eddy Merckx until van Garderen's crash. "It was the case before," Seidel said. "We're still waiting for the results. There were three laps to go and he was second." Two riders, Egoi Martinez of Spain and Tyler Wren of the U.S., also crashed in the second lap. Both
